

EDUCATION

B.E(CSE) - Sri Eshwar College of Engineering, Coimbatore	CGPA:8.00	2023 - 2027
HSC - Government Girls Higher Secondary School	90.8%	2021 - 2023
SSLC - Government Girls Higher Secondary School	87.3%	2020 - 2021

INTERNSHIP

MODERN FULL STACK Intern– Winter Internship 2025

Gained hands-on experience in building and deploying full-stack web applications using Next.js and MongoDB. Worked on session-based authentication, secure form handling, database modeling with Mongoose, and responsive UI design, enhancing my development and problem-solving skills.

MERN STACK Intern – Quantumnique Solutions 2025

Gained hands-on experience and knowledge about developing web applications using React.js, Node.js, Express.js, MongoDB and Advanced HTML and CSS. This experience provided how to build and deploy Full-stack web applications.

PROJECTS

Group Assignment Coordinator: Tech stack: Next js, JavaScript, MongoDB, Node js, Express js 2025

Built a role-based web application for managing academic assignments using Next.js and MongoDB. Admins can create, edit, and delete groups and assignments, assign groups to assignments, and manage group members. Users can submit, edit, and delete their assignment submissions. Admins can view all user submissions through a centralized dashboard. Focused on clean UI, dynamic routing, and efficient data handling for a smooth user and admin experience.

OTT Content Analysis: Tech Stack: Power BI, Numpy, Pandas 2025

Analyzed OTT platform data from Kaggle using Power BI to identify genre trends and content performance patterns. Performed data cleaning and transformation using Power Query to handle missing and inconsistent data. Built interactive dashboards to visualize ratings, release trends, and genre distribution.

Solar Energy Prediction: Tech Stack: Python, Flask, Streamlit, Scikit-learn 2025

Developed a machine learning algorithm based on past data of weather and solar production to forecast energy output. Preprocessed and analyzed the data with the help of Pandas and NumPy and created regression models with Scikit-learn. Developed a predictive interface with Streamlit. Performance measurement and accuracy of the model through regression measures.

TECHNICAL SKILLS

Languages: C, C++, Java, Python

Core Concepts: DSA, OOPS, DBMS

Technologies/Frameworks: HTML, CSS, JavaScript, React js, Tailwind, Express js, Node js

Tools: Power BI, Tableau, VS Code, Git, GitHub, Postman, Cisco Packet Tracer, Eclipse

Databases: MySQL, MongoDB

ACHIEVEMENTS

LEETCODE: 150+problems solved, 1313 (max:1412),

SKILL RACK: 640+problems

CODECHEF: 300+solved (max: 708)

CERTIFICATIONS

NPTEL - Data Structure and Algorithms using Java 2025

AWS - AWS Cloud Foundation Course 2025

Udemy – Learn Java Programming - Beginner to Master 2024

Udemy - Mastering Data Structures and Algorithms Using C & C++ 2024

Infosys Springboard – Python Foundation Certification 2023

Hacker Rank – SQL(Basics) 2023
