INTERNSHIP

MERN Stack – RV Techlearn 2025

Developed a basic e-commerce web application using the MERN stack focusing on responsive UI and core application features. Implemented frontend components and backend APIs to support data handling and overall application flow. Gained practical exposure to full-stack development concepts and application structure.

Tech Stack: MongoDB, Express.js, React.js, Node.js

DEVOPS-RAMPEX Technologies 2025

Developed a simple money-tracking website with a focus on basic user interface and functionality. Deployed the frontend on AWS EC2 instance with Nginx as the web server. Worked with basic server configuration to host and manage the application. Gained practical exposure to basic cloud deployment and server configuration.

Tech Stack: React.js

Tools used: AWS(EC2), Nginx

PROJECTS

JOB PORTAL APPLICATION 2026

Developed a full-stack Job Portal Application that enables employers to post jobs and job seekers to register, login, view job listings and apply for jobs through an interactive user interface. Implemented backend REST APIs for user authentication, job management and job applications, ensuring smooth end-to-end functionality. Deployed the application on AWS EC2 and configured MySQL database for cloud-based data storage.

Tech stack: React.js, Spring Boot, MySQL, AWS EC2, Nginx

COURSE REGISTRATION SYSTEM 2025

Developed a full-stack Course Registration System that allows users to view available courses and register students through an interactive user interface. Implemented backend REST APIs to handle course and student data and ensured smooth end-to-end functionality through Postman and browser-based testing.

Tech stack: React.js, Spring Boot, MySQL

COST ANALYSIS AND EXPENSE MANAGEMENT 2024

Developed a cost analysis and expense management system to record, organize and analyze vehicle-related expenses. Implemented structured data storage and basic cost calculations to help track expenses efficiently. The system supports viewing and analyzing expense records to understand spending patterns and improve expense monitoring.

Tech stack: Java, SQL

CERTIFICATIONS

Introduction to Internet of Things NPTEL	2025
Design Thinking-A Primer NPTEL	2024
SQL basics and intermediate HackerRank	2024
Mastering in Data Structure and algorithm using C and C++ Udemy	2024
Python Concurrent Programming Infosys Springboard	2023

ACHIEVEMENTS

Leetcode: Solved 200+ problems | [Profile](#)

Skillrack: Solved 200+problems | [Profile](#)

HackerRank: Awarded 4163 Hackos| [Profile](#)

Attended **PAPER PRESENTATION** at VEI Technologies

Participated in **Freshathon** Project Expo

SKILLS

Languages	C Python (Basics) Java SQL(Database)
Framework	Spring Boot
Web Technologies	HTML CSS React JS
Tools	Canva Eclipse MongoDB Git GitHub AWS(EC2) Google Colab VS Code Postman Jenkins
